

## CUTTING TABLE

For P/N: E12 044, E12 075, E12 208, E12 254

60-470 MHz  $\frac{1}{4}$   $\lambda$  antenna on SX-MOUNT and MULTIMAG

- Lengths may be different from those shown in this table depending on the actual mounting location
- All lengths are measure from the car-roof to the top of the antenna (top-knob excluded)

Frequency [MHz]	Length [mm]
60-70	1185
65-75	1105
70-80	1030
75-85	965
80-90	900
90-105	775
115-125	625
120-130	595
125-135	570
130-140	550
135-145	525
140-150	505
145-155	490
150-160	475
155-165	460
160-170	440
165-175	425
170-180	410
175-185	400
180-190	390
185-195	385
190-200	375
200-220	350
220-240	325
240-260	305
260-280	280
280-300	260
380-430	184
420-470	169
